Dear Colleagues,

We are delighted to be able to invite you to this year's 9th Castle Beauty Conference, which will be held on **3 May 2024** traditionally in Hluboká nad Vltavou at the Hotel Diamant.

This year, our invitation has been accepted by **ISAPS past president, professor Nazim Cerkes from Istanbul**, who is one of the world's foremost authorities on rhinoplasty. His lectures are very educational with many videos, and we believe that the course will provide you with very intensive acquisition of knowledge across the entire issue of rhinoplasty. The lectures will include an introduction to rhinoplasty for those interested in starting rhinoplasties, as well as advanced rhinoplasty techniques. Professor Cerkes will perform two surgeries at the CBC clinic, a primary and a secondary rhinoplasty, which will be professionally shot and edited for you. You will receive the recording electronically.

We look forward to your interest and it will be our great pleasure to meet you again in Hluboká nad Vltavou in the premises of the Hotel Diamant.

Best regards
Vladimír Mařík and Pavel Kurial
